MATCH THEM

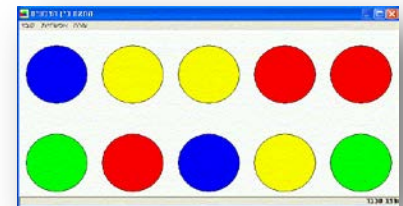

Match Them is a computer game that tests the user capability to match between colors and shapes. The game contains four levels of difficulty;

- ✚ Match colors when same shape.
- ✚ Match shapes when same colors.
- ✚ Match colors when different shapes.
- ✚ Match shapes when different colors.

Each time the user succeeds a voice feedback is played. If he fails, he will hear a low beep indicating that something is wrong and he will be able to try again.

Match Them enables the user to work using the mouse, touch screen or scanning (auto (1 switch) or manual (2 switches))
