TMAG SWITCH - BOX

TMAG Switch-Box contains 4 jacks, each one of them acting as a different keyboard key.

By pressing the switch connected to that jack, the computer will think that the user pressed that specific keyboard key.

The default 4 switch jacks are mapped to keyboard keys: F3, F4, Enter and Space.

Additional details:

- If there is need for different keyboard keys mapping, please let us know when ordering. The change is done without any additional cost.

- Switches NOT included.

- Warranty: 12 month.

- Delivery cost is included.

- Money back guaranteed if returned within 14 days.

- USB connector.
